

Summer Schedule 1971

10 Seniors Named to 1971 Who's Who

Linda Flachsland

Vic Jenkins

Ten MSC seniors have been named recipients of the 1971 Who's Who awards in a project conducted by the Senate.

The annual awards are presented to those students who have excelled in leadership and scholastic ability during their campus careers. Applications are processed by student Senators who consider the applicants' achievements in such areas as academic honors, athletics, and membership in organizations.

The honorees chosen are Linda Flachsland, Victor Jenkins, Leonard Lenihan, Jackie Lionberger, Jane E. Mann, Bill

Musgrave, Jim Oliver, Charlene Rush, Steve Schottel, and Alan R. Wagner.

Miss Flachsland has been Physical Education Majors Club vice president, Gymnastics Club vice president, Phi Mu president, Union Board member, President's Advisory Board member, Intramural committee chairman, senior class vice president, and contestant in the Tower Queen, Homecoming Queen, and Top Ten Coed contests.

Mr. Jenkins has been a member of Pi Kappa Delta, Blue Key, Phi Sigma Epsilon, Interfraternity Council, debate

team, Student Senate, Union Board, Student-Faculty Advisory Committee, and Student-Faculty Affairs Committee.

Mr. Lenihan has served as Alpha Kappa Lambda vice president, parliamentarian, executive council president, and pledge class president; Interfraternity Council recording secretary, Young Democrats Club president, and Traffic Court chairman. Currently vice president of the student body, he has been a member of the President's Advisory Board, Student-Faculty Discipline

NORTHWEST MISSOURIAN

Vol 31—No. 23—Northwest Missourian—February 26, 1971

Speaker Ian McHarg, Architect—

In Vanguard of Ecological Planning

Landscape Architecture keyed to ecology is a new view on deck this week for college students, faculty, and guests.

The distinguished teacher, planner, writer, and lecturer, Mr. Ian McHarg, third speaker of MSC's annual culture series, will speak on landscape Architecture at 4 p. m. Tuesday in the Charles Johnson Theater.

Mr. McHarg devotes his greatest amount of energy to the Department of Landscape Architecture and Regional Planning at the University of Pennsylvania, of which he is founder and chairman. This department is dedicated to pro-

ducing a new breed of landscape architects. It is the vanguard of ecological planning in the United States.

He is a partner in the office of Wallace, McHarg, Roberts and Todd, architects, landscape architects, and city and regional planners. The office has employed the ecological planning method in several studies. He is the author of "Man and Environment," "Ecological Determinism," and Design with Nature.

In discussing McHarg's work, Mr. George Pohl stated, "Here are the foundations for a civilization that will replace the polluted, bulldozed, machine-dom-

inated, dehumanized, explosion-threatened world that is even now disintegrating and disappearing before our eyes. In presenting us with a vision of organic exuberance and human delight, which ecology and ecological design promise to open for us, McHarg revives the hope for a better world. Without the passion and courage and confident skill of people like McHarg, that hope might fade and disappear forever."

Placing Seminar Set for March 8 In Union Ballroom

Senior education majors at Northwest Missouri State College and Northwest Missouri State College district school officials will meet on the MSC campus in a Placement Seminar March 8 in an attempt to satisfy the needs of both groups.

Superintendents from the 19-county district who are seeking to fill teaching vacancies for the 1971-72 academic year in their local schools will meet with the job-hunting MSC seniors in the Ballroom of the Union building, beginning at 10 a. m., and lasting until the vacancy-filling, job-seeking by both parties has run its course, according to Mr. Everett W. Brown, assistant to the president. About 70 school systems are expected to be represented, he said.

Each school will be given a location in the Ballroom where the officials will have an opportunity to interview those interested in the teaching openings at each school. A list of each school's teaching needs for the coming year will be circulated to the MSC seniors prior to March 8 to facilitate their search for positions following spring or summer graduation at MSC.

The superintendents and other school officials who attend the placement Seminar will be guests of the college at the noon meal.

MSC-State Drug Workshop Scheduled as March Series

Persons who have expressed their desire to get the facts about drug abuse will have that opportunity next month on the Northwest State campus.

A four-day Regional Drug Education Workshop, jointly sponsored by MSC and the Missouri State Department of Education, will be held March 11-12 and March 18-19. It will be coordinated by Mr. Gus Rischer, assistant professor of education.

Students, along with teachers and community leaders from MSC's 19-county district, have been invited to attend the workshop in the Union Building. They may attend any one session or all sessions free.

Each of the four day programs will begin at 8:45 a. m. and will go non-stop, with the exception of hour breaks for lunch and dinner, until about 9 p. m.

The workshop will be centered around stimulating the dissemination of drug abuse information in local areas by providing the latest data possible concerning drug abuse among young people. Specialists to Lead

Those attending will hear experts cover a wide variety of topics about drug abuse. Among the speakers will be Dr.

David E. Smith, M. D., assistant director of the National Training Center in Drug Education and the director of the Haight-Ashbury Medical Clinic. He will speak on "Drugs and Society."

Other topics to be discussed will be those on law, pharmacology, mental health, education, psychiatry, and sociology and their relationship to drug abuse.

Some of the titles of topics to be discussed are: "Program Overview," by Mr. Murray Hardesty, Missouri State Department of Education; "Youth Look at Drugs," by Mr. Gus Rischer; "Over the Counter Drugs," by Mr. Tom Beetem, pharmacist, Jefferson City, Mo.; "Legal Aspects of Drugs" by a panel of law enforcement officials; "A Matter of Morality and Ethics," by Rev. Paul Hunt, ecumenical campus pastor; "Guidelines for Coping with Student Drug Problems," by Dr. James Thompson, assistant professor of counseling, University of Missouri Extension Division; and "The Where to for Help," by Miss Donna Swartz, Missouri Division of Health; Mr. Bob Hickey, director of Kansas City drugs and substance abuse; and Mr.

Black Week Reflection

First Student: "Did you see Charles Wright and the Watts 103rd Street Rhythm Band?"

Second Student: "Where? When were they here?"

This would probably be the reaction of half the students of MSC if you passed the question to them. The fact is that Watts 103rd Street Rhythm Band appeared on campus Feb. 7 and received the poorest turn-out of any concert in the history of MSC — a mere 500 spectators, some of whom were visitors.

The reason for the sparse attendance, whether it was because of the cold weather, because some didn't care for Watts Band, or because the concert, although sponsored by Union Board, was the kick-off for the second annual Black Week, remains unknown.

Despite extensive planning by BS and T, only two events of Black Week were widely attended — the panel discussion and the soul food dinner. Could the reasons be because the discussion was free and because everyone loves to eat?

The panel discussion drew a full house; the soul dinner staff fed approximately 300 people, but not even 50 students attended the dance Feb. 12, and only 200 people, the majority of whom were townsfolk and faculty members, came to the talent and fashion show.

Naturally, the hard-working organization was disappointed about the lack of attendance. A touch of humor, yet truth, was displayed during the events with posters that announced, "Black Week — for Whites Only!" Knowing that they were welcome, many students still refused to participate.

When asked if she thought Black Week was a success, a spokesman of the organization stated, "Even though we cleared a little money, I still wouldn't call the affair a success. When we draw crowds along with the money, then we will celebrate Black Week as a success!"

The Brothers and Sisters Together will soon start making plans for next year's gala affair. Why don't the rest of us start planning to attend?

Hirsute Contemplations

Even though you may not admit it, chances are you are self-conscious about your hair.

Today, a great amount of time, money, and effort is spent in the grooming of hair. Money is spent on shampoo so that people won't get the "frizzies." Men must be careful to use a certain hair groom because their hair is made of protein, not grease or alcohol. Women want thick, luxurious lather and

like to have their husbands do the shampooing. At least this is the impression you get from reading the ads.

If a man's hair is too messy from using "that greasy kid's stuff," a player of the opposing team may stop the game in order to tell the unfortunate fellow he's using the wrong product. The poor soul will then be kicked out of the game! . . . so you ad readers are supposed to believe.

From the Editor's Mail

Dear Editor,

I have come to the point where I no longer find it is easy to believe the social condition of this college. Unless one of us is in a fraternity or has a girl on the campus, the condition becomes unbearable.

I believe that the first problem of this school is the fact it is located in a town that is not what one normally thinks of as a "college town."

The second reason that this is a dull campus is that we have a Union Board which seems to be more or less inactive. It seems to think that its only responsibility is to organize a few dances with big name bands and a few extra odds and ends like the all-night party, and that's it. In between these "big" events, all the students get is a few dances with local groups, whose talent can be best described as minimal. Why can't the Union Board get with it and organize something with at least some glamour every weekend? Other schools can, why not MSC?

I believe that the deadness is the main reason this college has such a large number of "suitcases." What is there for them to stay for? Except for maybe a basketball game to attend, under present conditions the students' only alternative to going home is to sit in their rooms and watch the mold grow. This is almost unheard of at most other colleges. A good example would be Iowa State University. At Iowa State, the Union Board has activities planned for almost every night of the week, let alone weekends. A lot of students I personally know at Iowa State say that they have no real desire to go home because there is so much to do on the campus. If our Union Board cannot plan activities at least on the weekends, then something is wrong somewhere.

Although I realize that the town situation probably cannot be rectified, I feel that the least the Union Board can do is to provide activities for the student to make this dry, campus just a little more bearable.

—Steve Feldman

To Fight No. 1 Enemy

Call for Mobilization of Forces

"Cancer is the No. 1 health concern of the American people" was the opening observation in a report from a panel of 26 eminent consultants that were appointed by the Senate labor and public welfare committee in the previous Congress.

Researchers project that if the cancer rate continues at its present level, one-fourth of the 200 million Americans now living will develop the disease and 34 million will die of it. In spite of this knowledge, in 1969, for every American citizen the federal government spent \$410 for national defense, \$19 for the space program, \$19 for foreign aid, and only 89 cents for cancer research.

Since the National Cancer Institute was established in 1938 much progress has been made in combating the disease. In that year only one in five persons with cancer lived longer than five years. Now it is one in three.

There have been great improvements in surgical techniques and in radiotherapy. Strides have also been made in chemotherapy. Four kinds of cancer previously considered incurable are now sub-

ject to cure by the use of chemicals alone. There has been much worthwhile research regarding the relationship of viruses to cancer.

Some medical men say that with continued intensive research a cure for cancer could be possible. The most essential elements in that formula are organization and money, because the problem of cancer is far bigger than the resources we have marshalled to combat it.

The panel of consultants to the Labor Committee recommended the establishment of an independent National Can-

cer Authority empowered to fund and coordinate a comprehensive national program of cancer research. Senator Thomas Eagleton, Missouri, co-sponsor of legislation recently introduced to establish this authority, talks strongly in favor of an appropriation of \$400 million in the coming fiscal year to fund it, as recommended by the panel of consultants.

The administration also has recognized the need for an increased federal role in the war on cancer. All must be united if this dread national killer is to be effectively attacked.

Housing Control Board Suggested

The city of Maryville has taken one step forward in improving city housing conditions for students and others of the community.

The city's minimum housing code will now be strictly enforced, according to Mr. David Warren, city manager. The code provides for the razing of housing units that fail to meet minimum standards if the owner fails to make the necessary improvements.

This should be only one step in the direction that should end with the establishment of a housing control board with a three-fold responsibility.

Such a board would inspect houses offered for rental and keep a record of all the units available. Prospective tenants would know what was available and the guaranteed condition of a unit.

A second responsibility of

the housing control board would be the establishment of a rent schedule. This schedule would set the minimum and maximum rents that could be charged on similar units.

If a landlord wished to raise the rent on a unit he would

have to prove that the raise in rent was necessary or have to provide additional services or make capital improvements on the unit.

The final responsibility of the board would be to hear and act on complaints of landlords and tenants.

The city of Maryville has taken an initial step but only by the establishment of a board with far-reaching powers will those seeking off-campus unapproved housing, and this includes young married couples, be guaranteed good housing at a fair and reasonable prices.

Bill McKinnon

Race for Space

As the enrollment at MSC continues to grow, off-campus parking will certainly get no better than it is at present. Off-campus students and commuters are finding it more and more difficult to find parking slots accessible to campus.

The problem is by no means aided when early arrivers park as if they had the only car in a 40-acre field. Unfortunately, this is not the only hampering factor.

When accumulating snow is pushed to the side of the street, the already small amount of space is pruned unnecessarily.

The first space problem could be solved by doing one of two things. Initially it is up to the driver to be courteous enough to allow as much space for the other guy as he can when he parks. An alternative is for the city and col-

lege to work together, set off parking spaces, and fine those who exceed an allotted space.

The snow problem will not be as easily rectified. It would necessarily require action on the city's part. Maryville would have to remove all of the mounds of slush and snow to make full use of available space.

Other cities haul away the excess gutter snow in important parking spaces. For example, the city of St. Joseph removes the slush and snow during light traffic hours. The result is more available space for parking.

The city, the college, and the students will have to work together if we are going to improve existing parking conditions. Of primary importance is students' realization that they are not the only persons who need car space.

Summer Programs Are In This Issue Only

This issue is an attempt by the administration and the Missourian Staff to conserve on budget and get copies of the summer schedule in the hands of all interested students.

Save your copy because there will be no summer catalogues printed.

Senate Sends Proposals To President, Regents

A proposal urging extended intervisitation hours in dormitories was accepted by student Senators during their Tuesday night meeting.

The proposal, subject to action by President Robert P. Foster, designates that visiting privileges be lengthened immediately to include hours from 8 p. m. to 12 p. m. Fridays, 1 p. m. to 5 p. m. and 8 p. m. to 12 p. m. Saturdays, and 1 p. m. to 11 p. m. Sundays. Hours would be consistent in all dorms in order to treat all students equally, but present intervisitation rules in each dorm would be in effect.

If enacted, the policy would be temporary until the end of the current semester to allow sufficient time to adjust. At the end of the trial period, the system would be evaluated by individual Dorm Councils, and each dormitory could revise or amend the regulations to fit students' specific needs.

The extended hours represent "the opinion of the majority of the students who bothered to return their questionnaires," reported Senator Jim Beattie. Although more hours had been noted in tabulations from those questionnaires circulated among men and women students, the times were revised somewhat after criticism from several concerned dorm residents.

Off-Campus Housing

Senators endorsed a recommendation that any student who has completed 27 academic hours or is 21 years of age may live in any off-campus housing facility, approved or unapproved. The proposal has been sent by Mr. Phil Hayes, dean of students, to President Foster and the Board of Regents.

If accepted and approved, the policy would also provide establishment of an information service for students seeking places to live. Any Maryville householder with a vacancy could go to the Student Personnel Office where he would fill out a card, designating the rooms available, to be placed in a file accessible to students needing housing.

A "bleed-in" for the community blood bank will be arranged soon on campus, according to President Jim Oliver. He reported that if two and one-half per cent of the students were to donate a pint of blood each, that quota would insure that any MSC student or any needy Maryville family member could receive blood free of charge. A publicity campaign arranged for the project will urge students to donate blood during the coming event.

Increased Senate-related duties of class officers were urged by several Senators. Senator Bill Andrews suggested that two Senators and two representatives be elected to replace officers serving from each class, in order to get more students involved in campus government.

Vice President Leonard Lenihan asked that existing officers be activated instead. He emphasized that they might be useful in several areas, including taking responsibility on Senate committees and offering ideas while attending regular Senate meetings.

Student Elections

Student elections for the coming academic year will be held Thursday, April 22, and election campaigns will begin Thursday, April 15. Although some Senators questioned whether a Friday election might be better, it was determined that voting on Thursday would benefit those students who go home on weekends.

Senate seats will be allowed to the two Senators elected next fall to serve from Dieterich and Millikan Halls.

Information Center

The student information center has been open under a skeleton schedule since Monday, according to Dean Hayes. A publicity campaign will be conducted to encourage use of the facility as soon as all materials have been fully organized there.

Senator Don Johnson called for Senate help in soliciting student body support for games played by the Bearcats' basketball team which, he revealed, may have a chance for the post-regional bid competition.

Independents Start Action

Independent students are forming groundwork for the spring elections using as a general theme "Commitment '71."

An organization has been formed and a constitution submitted to the Student Senate for a campus Independent Party having as its goal "Commitment to government for all students," according to Ron Jennings, elected Tuesday as the party president.

Each independent campus organization and all off-campus students are urged to participate in the Independent Party's program which will back candidates in the spring student body elections.

Others elected this week as directors in the party are Becky Brinkman, vice president; Leslie Smith, secretary; Mike Miller, publicity; Gary Musgrave, director of Phillips residence hall, is serving as adviser.

Independent Party meetings are held at 6:15 p. m. each Tuesday in the Oak Room of the Union.

"Each independent on campus is urged to attend and submit ideas for the party platform," said Stan Barton, Independent activist, "and we can begin working for student body action."

Wandering Critic: 'Camelot' Has Magnetic Touch

Two frontier-type boys gave their ticket stubs to the usher at "Camelot" opening night, and told her "Give us good seats; we've come to get some culture."

That first night was like the medicine show come to Dodge City, for the audience was entertained with a magic elixir potion, bringing the spirits of an idyllic kingdom to MSC.

"Camelot — might for night" declares King Arthur as the musical spins into happy dilemma.

The sheer magnitude of costuming such a show impresses the audience. Over 100 players are outfitted in attire befitting well kings, queens, and even Lord & Taylor. Guenevere is quite right in organdy and plush as she ponders: "Shall two knights never tilt for me and let their blood be spilt for me?" Realistic armor clanks for Sir Dinadin and knightly company.

Choreography for "Lusty Month of May" has an extra measure of grace and spirit. The whole chorus is featured in an outburst of singing and dancing that strikes a chord of inspiration in the cast.

Impressions of the audience for the first four nights ran to excitement over the imagery and gossamer quality of "Camelot." Some rather astonishing stage effects are used in lighting — putting Merlin's antics into mystic comparison.

Camelot is here. Its run will end Saturday evening. . . . MSC is doing a musical, an impressive one. And sometimes when the audience gasps with pleasure there isn't a whole lot of air to breathe onstage.

Notes to Vietnam

MSC's newly-organized Red Cross Chapter forwarded approximately 300 letters from interested students and faculty to North Vietnamese Premiere Pham Van Dang Wednesday, Colleen Green, chapter president announced this week.

Dr. James Lowe, professor of social sciences and sponsor of the Chapter, reported that the campaign was conducted in regard to the plight of prisoners of war being held in North Vietnam.

Professor Completes Degree

Mr. Edward Browning, MSC associate professor of accounting, has completed requirements for a PhD degree in accounting, with supporting areas in economics, finance, and management.

The degree will be granted June 1 from the University of Missouri, Columbia.

Attend Farm Show

Mr. Fred Oomens, agricultural mechanization specialist in the department of agriculture, and the students enrolled in his classes this semester, attended the annual farm show in Kansas City on Feb. 23.

Republican Club Meeting Changed

The next College Republican meeting has been changed from March 1 to March 8. Special guest at the March 8 meeting will be Ed Dinan, president of the College Republican Club at Rockhurst College in Kansas City.

Mr. Treese Speaks on Conservation

William Treese, agronomy instructor, was the guest speaker at the 22nd annual meeting of the Gentry County soil and Water Conservation District held recently in Albany.

Coming Next Week

Poll on 18-Year-Old Voting

Two hundred questionnaires will be distributed at random next week to MSC students to determine their reaction to the new voting law that has extended the vote to 18, 19, and 20 year olds.

In October the United States Supreme Court upheld the section of the voting rights law granting the right to vote to persons 18, 19, and 20 year olds in federal elections only.

The court struck down that portion of the law extending to 18, 19, and 20 year olds the right to vote in all elections.

The majority of states are now trying to determine the best way to handle these new voters. Because they can vote in federal elections only, either separate paper ballots or special voting machines that can be locked to allow voting on federal ballots only will have to be used.

Some states are planning special elections before the 1972 presidential election in an attempt to lower the voting age to the federal level.

Have those who are now eligible to vote registered? If they are eligible but haven't registered, why haven't they? These questions and more will be answered if the questionnaire is completed.

APO Gives \$250 to Center

John Moberg, first vice-president of Alpha Phi Omega, men's service fraternity, presents a \$250 check to Mary Hamilton, Senate secretary.

The money from the APO organization will be used by the Senate in purchasing materials for the student information center.

Speech Students To Compete Here In Spring Meet

More than 100 area high school students will participate here tomorrow in the annual Drama and Speech Festival that has been coordinated by the speech and drama departments.

Beginning at 8 a. m. the contestants will compete in the categories of drama, debate, news commentary, oration, extemporaneous speaking, and oral interpretation.

During a 6 p. m. banquet in the Union Ballroom, scholarships, certificates, and trophies will be awarded. Mr. Lincoln Morse will be master of ceremonies.

Guest speaker at the banquet will be Prof. R. D. Moore, professor of language at Peru State College, Peru, Neb. He will discuss his experiences as a communications instructor.

In the evening, all of the participants will attend MSC's finale production of "Camelot."

College Gets Journalism Book Bequest

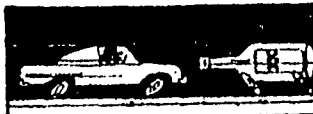

Northwest Missouri State College is the recipient of a \$750 gift to be used for the purchase of journalism books, in memory of Mr. Max Jones, long-time editor and publisher of Platte City's weekly newspaper, The Landmark.

In announcing the gift, Mr. James Johnson, head librarian at Wells Library, said a bronze plate inscribed with Jones' name will be displayed on the library endowment plaque at the entrance to the stacks and all the books purchased through the donation will be similarly stamped.

The late editor and publisher of The Landmark had little formal education, but he developed a skill in language usage which was admired by readers of his editorials and columns. His writings reflected a wide knowledge of mythology, literature, current events, and the Bible gained through his love for books and magazines.

Since his death, his widow, Mrs. Lucile Jones, has been editor and publisher of The Landmark. They have four children, twin sons, Andy M. Jones, Kansas City, and Philip M. Jones, New York City; and two daughters, Miss Elizabeth Jones, Kansas City, and Mrs. Dorothy J. Smither, Weston. All four children have attended Northwest Missouri State College. Andy and Mrs. Smither hold bachelor of science degrees from MSC.

Keep This Issue for Your Registration Guidelines

Registration for the Summer Session 1971 will be held in the Lamkin Gymnasium, on Wednesday, June 9, 8:00 a. m.

All students planning to register are requested to study carefully the procedures listed below in regard to admission and registration.

Undergraduate students planning to enter Northwest Missouri College for the first time should apply to the Registrar for admission blanks, fill them out and return them to the Registrar prior to matriculation. It will be necessary to have a transcript of high school and other college work on file with the Registrar at that time.

Students who have attended the Northwest Missouri State College previously are requested to complete application forms for a permit to register as soon as possible, at least two weeks prior to registration. Failure to do so will result in delay for the student in registering.

ALL STUDENTS EXCEPT THOSE ENROLLING FOR THE FIRST TIME AT THIS COLLEGE MUST APPLY FOR PERMISSION TO ENROLL FOR THE SUMMER SESSIONS.

PROCEDURE IN SEQUENCE

1. Complete application for registration permit in Registrar's Office.
2. Obtain registration permit from permit desk, first floor of Administration Building, according to the hours designated as registration times.
3. Obtain advisement sheet from advisement desk, first floor of Administration Building.
4. Go to Lamkin Gymnasium at hours assigned. Obtain registration materials and report to your adviser. When program of academic courses has been obtained from adviser, fill in all registration forms in ink. Leave advisement sheet with adviser.
5. Get approval of Dean of Men or Dean of Women for room or other type of housing.
6. Turn in registration materials; retain student's copy of schedule of classes.
7. Fees will not be collected as part of the registration procedures. They are to be paid directly to the Business Office in the Administration Building according to the schedule which will be available at the time of the registration period.

FEES

Essential Expenses for Summer Term

Incidental, activity, book rental, union	\$75.00
Book deposit	\$10.00
Board and Room	\$187.50

Out-of-state fees: A \$67.50 out-of-state fee for the summer will be charged in addition to registration fee.

DATES FOR PROGRAM CHANGES

Last date to add or change courses:

Wed., June 16

Last date to drop courses or withdraw with assured WP grade:

Wed., July 14

REGISTRATION TIMES

Students will register according to the first letter of their last name as follows:

A to J	8:00
K to M	9:00
N to R	10:00
S to Z	11:00

(Ed 158)

Student Teachers' Meetings Planned

Dr. Grispingo has called two important meetings for education students.

Area school superintendents will be recruiting personnel for next year at a meeting at 10 a. m. March 8 in the Union Ballroom. Students needing full-time teaching positions next year should attend to arrange for a job interview.

The second meeting for all students planning to student teach any time next year will be at 8 p. m. March 16. Attendance of those affected is required.

Davis: Self-Reflection Key for Understanding

Mr. Gary Davis, assistant professor of humanities and philosophy, presented a research paper Saturday before the meeting of the American Academy of Religion at the Blackstone Hotel in Chicago.

Davis's paper entitled "On the Possibility of Certainty in Religious Experience" is based on an examination of the thesis that "introspective, self-reflection is the key to a thorough understanding of religion."

"Because the subject and the object in self-reflection are identical, some philosophers and theologians have claimed that reflection upon one's own religious experience is a way to certain knowledge of religious truth. In this paper, I try to demonstrate that complete self-reflection is impossible. Just as a finger can never touch itself, a man can never reflect completely upon himself. Therefore, introspective analysis of religious experience cannot provide what many have argued it does provide: namely, access to religious certainty," Davis said.

SELF-MADE

A wise man will make more opportunities than he finds.

Starfire
DIAMOND RINGS

A sizeable diamond at an amazingly low cost. Registered and protected against diamond loss.

Journalism Workshop—Publications

June 7-June 18, 8:30-3, Daily, 2 hrs., Eckert and Grube, CH102B.

FRENCH—14

- French 11 Sec. 1, 8:40 and 9:50, D, Beginning French, 5 hrs., Mauzey, CH204.
—All students enrolled in Fr. 11 are required to study a minimum of two hours each week in the Lang. Lab. This time is in addition to the regularly scheduled class meetings for the course.
- French 74 Sec. 1, 9:50, D, French Reading and Conversation, 3 hrs., Youland, WL133.
(French 73)
- French 189 Sec. 1, 11, MTWF, Independent Study in French, 2 hrs., Youland, CH205.
(Senior Standing, permission of instructor)

GEOGRAPHY—32

- Geog 15 Sec. 1, 8:40, D, World Geography, 3 hrs., Augustin, GS319.
- Geog 15 Sec. 2, 11, D, World Geography, 3 hrs., Hagan, GS218.
- Geog 99 Sec. 1, 8:40, MTWF, Maps and Map Interpretation, 2 hrs., Widger, GS112.
- Geog 104 Sec. 1, 9:50, MTWF, Conservation of Natural Resources, 2 hrs., Hagan, GS217.
- Geog 186 Sec. 1, 9:50, D, Geography of North America, 3 hrs., Widger, GS112.
(2 hrs. Geog & 3 hrs. Am Hist)
- Geog 208 Sec. 1, 12:30, D, Political Geography, 3 hrs., Widger, GS112.
(Hist 100 and Geog 15 or 51)

GERMAN—38

- German 61 Sec. 1, 9:50 and 11, D, Intermediate German, 5 hrs., Govier, CH200.
(German 11)
*All students enrolled in Ger. 61 are required to study a minimum of two hours each week in the Lang. Lab. This time is in addition to the regularly scheduled class meetings for the course.

GUIDANCE—09

- Guid 230 Sec. 1, 7:30, D, Princ & Pract of Guid, 2 hrs., Rischer, GS132.
- Guid 256 Sec. 1, 8:40 D Practicum in Counseling, 2 hrs., Zillner, AD208.

- Guid 256 Sec. 2, 8:40, D, Practicum Wirth, AD208.
- Guid 256 Sec. 3, 8:40, D, Practicum Hoadley, AD208.

 Math 199 Sec. 1, 1:40, MTWTh, Methods in Secondary Math, 2 hrs., Robb, GS132.
 Math 245 Sec. 1, 8:40-9:50, MTWF, Matrix Theory, 4 hrs., Gutzmer, GS124.
 (Math 140)

AWS Amends 'Key' System

The AWS General Council voted unanimously Feb. 17 to allow keys to be checked out until closing and to permit the coeds to turn them in as late as 10 a. m. the next morning.

Previously keys had to be checked out by 10 p. m. and returned by 8 a. m.

Also reviewed at this meeting was Mother's Weekend. Discussion revealed that AWS had lost money on the program last year. It was decided to leave it up to the individual dorms as to whether they would honor mothers of residents on the weekend and how they would participate in the event.

Earlier in the semester AWS voted to keep the Bridal Show on March 8, to eliminate Male Appreciation Day this year because of conflict with Union Board's All-Night P. A. R. T. Y., and to extend time for checking out late leaves from 6 p. m. to 10 p. m.

Faculty Approves Course Additions

Course additions in three departments were approved by the faculty in their last meeting.

Added to the biology department are general microbiology, advanced microbiology, basic physiology and a Biology 191 practicum, which was made a required course for a B. S. Degree in Education for biology majors.

Courses added to the music curriculum are Music 215, comparative methods in elementary music education, and Music 222, junior high school music methods.

Innovations in the political science department are Political Science 50, 165, and 210, which are introductions to political science, American legislatures, and political behavior.

1971 Summer Schedule Continued...

MUSIC—19

- Mus 10 Sec. 1, 9:50, D, Fundamentals of Music, 3 hrs., Moss, FA108.
- Mus 20 Sec. 1, Arr., Arr., Applied Piano, 1 hr., M. Sandford, FA229.
- Mus 30 Sec. 1, Arr., Arr., Applied Baritone Horn, 1 hr., W. Rounds, FA111.
- Mus 30 Sec. 2, Arr., Arr., Applied Baritone Horn, 1 hr., Moss, FA230.
- Mus 31 Sec. 1, Arr., Arr., Applied French Horn, 1 hr., W. Rounds, FA111.
- Mus 31 Sec. 2, Arr., Arr., Applied French Horn, 1 hr., Moss, FA230.
- Mus 32 Sec. 1, Arr., Arr., Applied Trombone, 1 hr., W. Rounds, FA111.
- Mus 32 Sec. 2, Arr., Arr., Applied Trombone, 1 hr., Moss, FA230.
- Mus 33 Sec. 1, Arr., Arr., Applied Trumpet, 1 hr., W. Rounds, FA111.

Film on Greece To Be Shown

The travel film "Image of Greece" will be presented at 8 p. m. March 8 in the Administration Building auditorium.

This film, produced by Kenneth Richter, deals with both ancient and modern Greece, covering everything from Marathon, Thermopylae, and Salamis to modern Athens.

Mr. Richter originally studied astronomy at Harvard but became interested in motion picture filming and decided to make it his life's work. He spent nearly five years in Hollywood acquiring a highly polished camera technique and a knowledge of all phases of the motion picture art.

Mr. Richter believes that the motion picture is the most powerful medium yet developed for helping people understand each other better. His intention is to make interpretive films.

The experienced student of the world has traveled more than a million miles and visited 60 countries. He has lived with head-hunters of Ecuador and with nomad Berbers of the Sahara, and has spent weeks photographing all facets of life in tiny villages of Europe, Africa, and the Middle East. Such varied figures as the Shah of Iran, Queen Elizabeth of England, Konrad Adenauer of Germany, and Marshal Tito of Yugoslavia, have not only sat for his cameras but have shared with him, in photographic interviews, their viewpoints and their intentions.

His color films deal with many lands and the subject matter gives them a vital contemporary value which demonstrates Mr. Richter's outstanding camera work and his analytical mind.

Agriculture Testout Date Announced

Tuesday, March 2, is the final date for persons to file for testing out of the agricultural courses.

Filing should be done with Mrs. Victor Soetaert, secretary, in Room 226 Administration Building, which is the general office for the agriculture department.

Any course offered in the department may be tested out of for credit by following the proper procedure of filing and appearing for the testout examination at 7:30 a. m. on April 17, 1971, in Room 218B Administration Building.

Two-way recognition for helping others was given at the Sigma Society meeting Monday night.

For his many years of dedicated service to Northwest Missouri State College, Dr. Robert P. Foster received an appreciation gift, a desk set, from Sigma Society. He is shown in the left picture with Mrs. Foster, right, as Norma Reynolds, vice president, makes the presentation.

The citation was made after the president had talked to the group about services which campus organizations can perform at MSC. He outlined varied service projects that mainly require time, thought, and careful organization. Sigma members will consider each suggestion at their next business meeting as they select projects for the coming year.

"You have the opportunity of doing things close to you," President Foster said. "We need persons who believe in this institution to represent it. Groups like yours and you as individuals are the best salesmen the college has."

In another area of service and recognition, Karen Hardy received a \$100 scholarship from the Maryville Soroptimist Club. The award, an annual recognition to a Sigma member, was presented by Mrs. John Schrier, Soroptimist Club liaison chairman of Sigma Society activities, and Peggy Finlay, Sigma president, shown in the second picture.

Miss Hardy received the scholarship for her high scholastic achievement, a 4.0 last semester, and her outstanding service record to the college, the Maryville community, and Sigma Society.

...Drug Workshop

... From Page 1

Don Bailey, University of Missouri Extension Division. To Study Involvement

"Community Involvement," will be given by Mrs. Josie Thompson, member of the state team on drug abuses: "Techniques of Teaching Values," by Mr. Gary Westwood, University of Missouri Extension Division; "Student Involvement: Possible Approaches," by Mr. Kermit Broadfield, counselor in the Ladue City schools.

Similar workshops have been held at Central Missouri State College, Southwest Missouri State College, Lincoln University, Southeast Missouri State College, and Forest Park Community College. Nine drug workshops will have been held at the conclusion of the statewide program.

It is expected that approximately one thousand teachers, community leaders, and students will receive training through the workshops by July. Upon completion of the seminars the participants return to their local communities to assist in development of local drug education programs.

Society Notes

Kay Wyer, Westboro, to Bruce Peterson, Northboro, Iowa.

Susy Stephens to Wayne Dolecheck, both of Mt. Ayr.

Sandy Stephens, Mt. Ayr, to Roger Schlotzauer of Corning, Iowa.

Nina Younger, Elmo, to Ken Wills, Kansas City.

Band Director Rounds Serves Area Musicians

Mr. Ward Rounds, concert band director, will assist two area high schools next week with spring band projects.

Tuesday Mr. Rounds will at Maryville R-II High School to serve as clinician. Friday will be guest conductor for Nodaway-Holt Clinic at Maryland.

This weekend Mr. Rounds serving as guest conductor at the Central Nebraska Conference clinic at Central City, Neb.

Pool Now Wired for Music

For two years Mrs. Barbara Bernard, MSC swimming instructor, had a continuing dream. Finally in January, 1971, it came true!

The dream consists of a phonograph, a tape recorder, a microphone, and an amplifier unit which adjusts to both underwater and overhead speakers. The speaker complex is mounted in a varnished plywood cabinet, constructed by MSC carpenters.

Mrs. Bernard stated that she first got the ideas for such a complex in the spring of 1969 during the swim show. The intense need for a device to control the underwater and overhead speakers separately inspired the instructor's dream. In order for the swimmers to hear the music and the introductions, the overhead speakers had to be turned to maximum volume.

"Naturally, such loud music made the audience quite uncomfortable!" stated the swimming instructor.

After the idea was formulated, Mrs. Bernard relayed her desires to Mr. Richard Houston, assistant director of IMB, who ordered the parts and put them together, aided by Merle Winkelman, MSC senior.

"If I had an amendment I wanted made, I just called Mr. Houston and asked him about it," Mrs. Bernard said.

"The dream is especially useful during swim show practices and regular swimming classes. It is also handy be-

cause it can be rolled into the pool area and returned to the storage room when not in use," Mrs. Bernard said.

The complex is an advantage for the swimmers because they can practice with the new

equipment and be acquainted with it when a swim show is performed.

When asked if her dream-come-true is used much, Mrs. Bernard laughing stated, "I've certainly been using it, and I'm having a lot of fun playing with it!"

IA Educators Attend Meeting at SEMSC

Several representatives of MSC were present at a recent Missouri Industrial Teachers Educator meeting at Southeast Missouri State College, Cape Girardeau.

In attendance were Dr. Peter Jackson, Dr. Herman Collins, Dr. LeRoy Crist, Mr. Ross Littrell, Mr. Bruce Parmelee, and Mr. Glen Pederson.

Dr. Jackson, director of MSC's industrial arts department, spoke on teachers' retention and professionalism.

And a Valentine Check to Boot

"We wish we could send a valentine to each of our customers, particularly to one Sara Seipel of Conception Junction, Missouri." . . . And a generous Kansas City store did just that for the MSC coed.

As a result, the fun-loving sophomore has a part of her Easter vacation art trip to New York assured.

Appearing in the Feb. 14 issue of the Kansas City Star, the foregoing greeting to Sara resulted from her letter to Woolf Brothers about a pair of boots she had ordered. Hers turned out to be a half size too large, so she returned them to the store, resigned to wait until a new shipment came in. After sending an inquiry a couple of weeks later, she received her boots in the correct size.

Miss Seipel then returned a humorous letter with a new check enclosed, "Unless you really don't want it," she wrote . . . in which case she would

apply it to a trip to New York with her fellow art students. She decorated her letter with a smiling face and three postscripts and added "too bad your salesman is listed as a number. I'm sure he's more than that . . . You probably think so, too . . . Well that's business. Have a Happy Day."

The company sent her check back saying, "We hope it helps you enchant the New York art world, as you have us."

With love,
Woolf Brothers"

Planned Parenthood Clinic

Ithaca, N. Y. —(I. P.)— Cornell University recently announced its plans for the formation of a Planned Parenthood Clinic to be located on the campus.

The clinic, which will be operated by Planned Parenthood and administered by the Planned Parenthood staff and boards, will be for counseling, examinations, and prescriptions only.

Elmer Meyer Jr., dean of students at Cornell, said the arrangement with Planned Parenthood is part of the University's recognition of its responsibilities in the area of sex education.

Educational Process Questioned

Emporia, Kan. (I. P.)— Indifference to teaching and concern over the entire "educational process" may be the major factors resulting in student unrest on college campuses across the country, according to Laurence Boylan, dean of graduate studies at Kansas State Teachers College, Emporia.

Dean Boylan says, "The main reasons for student unrest is to be found in the educational process of the colleges and not in social issues."

He made a careful study of characteristics of what he termed "the protest prone campus," and said most important is that "the aims and purposes of faculty, students, administrators and trustees are not in congruence."

New Transfer Credit Plan

Portland, Me. —(I. P.)— Dr. James F. Dickinson, president of Westbrook College, recently announced a plan which will make a wide variety of programs available to students who hold the associate degree from Westbrook.

All approved course work at any accredited institution will be accepted by Westbrook towards the degree, thus eliminating the troublesome factor of transferring credit hours, often with a penalty to the student.

Graduates of the two-year program will enroll as special students at other colleges, and Westbrook will remain as the mother institution, evaluating and controlling credits, granting degrees, and issuing transcripts.

Retaining Dress Tradition

Sewanee, Tenn. —(I. P.)— Students recently voted to retain their hundred-year-old coat and tie tradition for classes and dining at the University of the South, with coeds to wear skirts in the same situations.

The faculty received and approved a resolution to support the dress code by requesting its observance when necessary. The existing dress rules were modified for more informal occasions.

Gary James: All-Around Bearcat

By Ron Richer

Senior wrestler Gary James is an excellent candidate for the honor of all-around Bearcat in recent weeks.

James, a remarkable wrestler, from Chariton, Iowa, has competed in three different weight divisions this season 158, 167, and 177 pound classes. He has combined for a 8-1 record with four pins in dual meets. He stands 11-5 with five pins in overall competition.

James who co-captained last year's squad, posted an impressive 13-4 mark for the campaign and wound up second in competition. A year earlier, James had recorded another fine season as a sophomore with a 11-5-1 mark and another second place finish in the conference tournament.

MSC's wrestlers stand 7-5 in dual meets this season. The Bearcat grapplers finish the season against William

Jewell, and the MIAA conference meet at Central Missouri State March 5-6.

James in the 167 pound class is 6-3 with three pins. An excellent grappler, he deserves the recognition of being called all-around Bearcat.

MSC Tankers Divide Meets

The Bearcat swim team split two games with their opponents, Kansas State College, Feb. 19, and Southwest Missouri State, Feb. 20.

The Tankers triumphed over Kansas State, 73-38, while Southwest downed MSC, 72-41. In each meet, different records were set, and many swimmers posted their best times of the season.

In the 400-yard medley relay, Glen Saving, Don Morris, Randy Rolfe, and Mark Richmond placed first against Kansas and second against SMS. In 1000-yard freestyle, Vic Saputo was second, in both meets; 500-yard freestyle, Charles Brewton, second against Kansas; 200-yard freestyle, Bruce Schomburg, second in the Kansas meet.

Saving was first in both meets, 100-yard freestyle. In the 160-yard freestyle, Morris was first, Bill Dalton, second, Kansas meet; in the 60-yard freestyle, Saving, first, SMS meet.

In one-meter diving, Vic Konecny was first in both meets; in 200-yard butterfly, Brewton, first, Kansas; in 200-yard backstroke, Mark Richmond, first, John Brubb, second, in both meets. Randy Rolfe was first, in the 200-yard breaststrokes; Konecny was first in both meets in diving. In the 400-yard freestyle relay, Schomburg, Saputo, Morris, and Saving were first against Kansas.

The last meet before the MIAA Conference Meet will be at 7 o'clock tonight at the home pool when the Bearcats clash with St. Louis University.

Gymnastics Club Has New Officers

The Gymnastics Club recently elected new officers whose duties will continue through next fall.

The officers are Dwyla Young, president; Jim Baldridge, vice president; Karen Grimm, secretary; Marylyn Duffett, treasurer; and Sue Rockow and Nancy Ketchem, reporters.

The club meets each Thursday from 6:30 to 8 p. m. in Martindale Gymnasium. Mrs. Janet Moss is the club sponsor. New members are welcome.

Intramural Roundup

Independent intramural swimming competition will start March 2 or 4 at the time basketball competition will end.

The basketball scene involves only one determined league champion — Band of Gypsies League B, with a 7-0 record. Other league titles are tied up. The ties involve, by league: A: BSU Panthers, 5-0; Royal Crap, 5-0; Six Packers, 7-1—B: Band of Gypsies, 7-0—C: FAC, 7-0; Ball Crunchers, 5-1—D: Celts, 6-1; Globe Trotters, 4-1; Boys in the Band, 5-1—B: Chairmen of the Board, 6-1; Beer Cats, 5-1 Menguinis, 6-1.

NCAA Is Considering 'Cat Qualifications

What are the chances of MSC's basketball team receiving an NCAA Small College Regional invitation?

To this question, Coach Dick Buckridge replied: "We are certainly being considered. We have received information from them (NCAA) requesting data about our squad. They have also asked if it would be possible for us to host the first round game of the tournament if we get the bid."

However, the former All-MIAA guard, went on to stress

the fact that we are only one of several teams being considered for the honor, adding, "A win over league leading NEMSC is a must for the 'Cat' if we are to get an invitation from the NCAA."

"If we can beat NE, we will have won our last five games and finish the season at 15-9. This would prove our club has a great deal of momentum. A loss, however, would take that momentum away from us and probably take us out of the picture completely," Coach Buckridge concluded.

Grapplers Trample CMSC Find Defeat at Nebraska U

MSC's wrestling team revamped their record to 7-5 by defeating Central Missouri State College and yielding to the University of Nebraska in action Feb. 18, 20.

The grapplers thumped CMSC 20-11 and the Junior varsity closed out an undefeated season with a 36-0 whitewash of the CMSC junior varsity. It was the junior Bearcats' sixth win in as many outings.

The University of Nebraska's wrestling team handed the MSC squad a 31-3 defeat at Lincoln.

The Bearcats lost in what may be the shortest match on record. Held during the intermission of the Nebraska State High School wrestling tournament, the meet lasted only 19 minutes. Eight mats were employed to speed the meet.

"It was over so fast that there wasn't time to get excited. In a normal one mat meet, the excitement builds with every match," commented one spectator.

For the MSC grapplers it was the second defeat in as many starts in Big Eight competition.

Gary James, MSC team captain and possible candidate for national honors, was lost for

the season when he dislocated his shoulder midway through his match.

The Bearcats only points came in a 17-5 decision by Loren Schweizer over the Cornhuskers' Vic Smith.

Nebraska scoring was lead by Joe Orta. Orta, a senior, has been picked by the United States Amateur Wrestling Committee to compete in an international event in Russia.

One dual, the MIAA tournament at CMSC, and the MCAA College Division Tournament at Fargo, N. D., still remain on the wrestlers' schedule.

Judo Club Wins Five Trophies In Closed Meet

Gaining two first places, two second places, and one third, the Judo Club successfully completed in a closed competition last Sunday at the Shoto Academy in Kansas City.

Dean Myrtue, in the 176 pound and under division, and Archie Nelson in the open division earned first place trophies. Bill Montague, in 176 pound and under division, and Herman Lyles, in open division, gained second place trophies. Winning third place was Brian Holland in the 10-year old division.

Louis Buckner, Jr. also competed but did not place. The group was accompanied by Bob Timm, president, who could not take part in this match which was for Yonkyu or green-belt level and under. Timm has achieved the brown belt level.

Judo players from the Shoto Academy, Missouri Western, Central Missouri, Wentworth Military Academy and Northeast Missouri participated.

- March 5 . . . First block ends . . . Phi Mu Formal.
- March 6 . . . Delta Sig Formal.
- March 5-6 . . . Swimming MIAA Conference Meet at Southeast Missouri State.

Faculty Defeated In Library Benefit

MSC's basketball cagers parlayed the efforts of Don Nelson and Don Johnson into a 67-62 victory Saturday night over loop foe Lincoln University.

In a contest in which the score was tied eight times and the lead changed hands seven, it was the offensive thrust of

Nelson and Johnson which sparked the Bearcats to their third straight win. Nelson scorched the nets for 22 points, as he picked apart the home-standing Tigers' zone defense. Johnson led Coach Dick Buckridge's charges in the free throw department, as he canned five of six charity tosses in the waning minutes of the battle to insure a Northwest win.

The victory pushed MSC's overall record to 13-9 and its MIAA mark to 7-4.

Griffons Dim 'Cats' Chance For NCAA Bid

Missouri Western College Griffons poured in 28 of 30 free throws Wednesday night to secure a 72-67 overtime victory over MSC at St. Joseph City Auditorium.

The loss dropped the 'Cats' overall record to 13-10 and seriously reduced their chances of receiving an NCAA Small College Regional invitation.

Don Nelson and Darnell Moore led NW's offensive efforts with 16 point performances.

Fouls were the key to the 'Cats' defeat, as Nelson, Gary Wood, Carl Jenkins, and Ken Whitney all ran into trouble early. Nelson and Wood fouled out of the rugged contest. Jenkins and Whitney both picked up four personals each.

Women Gymnasts Rank Second In State Meet at CMS College

MSC's women's gymnastics team won second place at the State Gymnastics Meet at Warrensburg last Saturday with a score of 50.15.

Four women placed in the meet. Included were Pam Bowen, who won second in all-around competition, first place on the balance beam, and third in the floor exercises; Kathy Vallier, who took second place in vaulting; Sandy Stephens, who won third place spots in vaulting and work on

the uneven bars; and Barb Axton, fourth place winner in the floor exercises.

Other participants in the meet were Becky Brue, Jill Manard, Debbie Mendenhall, Becky Owens, and Dwyla Young. Mrs. Cheri Juelsgaard and Leslie Clark served as judges for the teams. Miss Sandra Mull coaches the gymnasts.
